ALLOTMENT NEWS:

Well what can I say about the weather!?! Fortunately my allotment plot is not near to a river & therefore did not flood.

The runner beans have loved the moisture and many courquettes, which I planted out quite early on, developed into marrows! Last year I bought a recipe book; 'What an earth am I going to do with all these courquettes' 101 recipes. Peas did well and I rescued the onions before they went rotten in the wet conditions. The potatoes were better than last year as they were not so prone to splitting during cooking. So considering the extreme weather we have experienced I feel we have not done too badly.
